

Emrah Polatcan

Front-end Developer

In February of 1987, I opened my eyes to the world. After completing primary and secondary education in Geological Engineering, Kocaeli University I continued my life. During his career university education in Turkey's leading company started to work as part-time. Then I read it and I decided that I engaged in the profession for many years. With the guidance of my cousins engaged in this business I turned to the software industry. My goal in life is the motherland of this business with my brother to go to Silicon Valley startups establish a continuing my work in this direction.
